With Apex OmniSource as your dedicated partner, you gain access to the latest in AI-driven security technology, video intelligence and advanced contraband detection, ensuring that all of your facilities' & institutions' security systems are both effective and adaptable to any situation. From basic security cameras to enterprise network solutions, our smart security systems & video management tools are designed to enhance safety & support smart decision-making across all sectors.

Protect inmates and staff.

Screen from a distance to keep your staff safe, and find even the smallest ferrous contraband that can be used as weapons, preventing violence and offering your staff peace of mind as they work.

Implement surprise screenings.

Set up screening in minutes throughout your facility to eliminate routine and expected checkpoints.

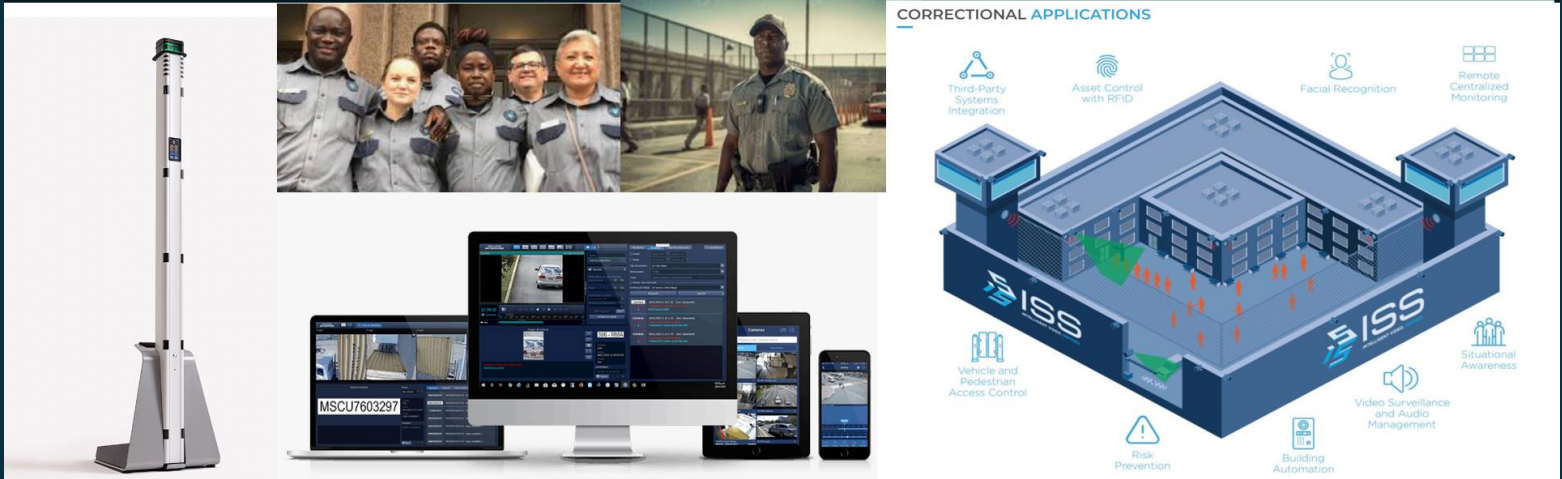

Improve productivity.

Screen more people in less time with fewer officers and staff.

Find contraband in more places.

Flexible deployment options allow you to screen possessions for hidden objects. Screen head-to-toe, and even find ferrous metal items hidden in the body.

Apex OmniSource, LLC has tremendous past performance in executing many awarded contracts from the Department of Veterans Affairs, The Federal Bureau of Prisons (DOJ), the Indian Health Services, DHHS, and many other Federal Government/ State Government agencies.
